

Doctors think you're crazy.

You've been diagnosed with multiple conditions.

Your condition is getting worse.

No one will treat you.

You have lost your dignity, your trust and your life.

You are being ostracized for thinking it may be Lyme.

You are not alone.

The Dr. E. Murakami Centre for Lyme Research, Education & Assistance Society is a registered BC Charitable Organization dedicated to the promotion of unbiased research for better testing, diagnosis and treatment protocols for Lyme disease and co-infections in Canada.

'Dedicated to making a difference. Dedicated to Canadians with Lyme.'
